Acknowledgement

GERMI and its team are grateful to UNEP for giving the opportunity to contribute to the development of the database on Trade names. The work on developing the fact sheets was equally stimulating. We could complete this work only with the active involvement of Ms. Kakuko Nagatani, Mr. Saiful Ridwan and Mr. Jim Curlin. Our special thanks to Mr. Atul Bagai and Mr. Rajendra Shende for their most valuable guidance on a continual basis. We thank Rowena Elemento for her enthusiastic and periodic communication regarding progress schedules and her kindness.
